

## **MC110 Intro to Comp.**

Here are assignments 5 and 6. You are only required to complete one of them, although you may choose to do both of them if you would like (and both can contribute to your total assignment count).

I am presenting them both on this page so that you can see what is required of them and make an informed decision on which one you would like to complete.

### **Assignment 5 – Pop Songs**

Write a verse and chorus for a pop song. You can use any instrumentation you like, but you must make an audio recording of this assignment...no written notation. You can record it either with voice and some sort of accompaniment (piano, guitar, etc) or with a full band if you're feeling extremely ambitious. It should have lyrics, and you should write them yourself. The lyrics don't have to be good, or even make sense...but I still want you to write them. You are also welcome to write a complete pop song, although all that is required of you is a verse and chorus.

### **Assignment 6 – Jazz Songs**

Write a 16 bar (or more if you like) jazz song. If you choose this one I would like it actually notated as one would standard jazz tune (melody with chord symbols).
